Subject: Become a Penetration Tester!

CYBRARY

Penetration testers are in high demand. Last year, [penetration testing](#) ranked as **one of the three most in-demand jobs** in the growing cybersecurity job market.

If you're worried you need some fancy college degree to [become a pentester](#), think again...

Employers want professionals who can demonstrate the required skills, regardless of education.

Cybrary offers realistic, [virtual lab](#) environments where you will gain real-world, hands-on skills you will use as a penetration tester. Within the labs, you'll use today's latest tools and technologies; and, with help from a mentor, receive the guidance you need for your new [career path](#).

The best part is that if you commit yourself to [5 hours](#) of study a week, **you can earn our penetration tester certification in approximately 6 months!**

Once you've completed the program, you'll have an arsenal of new skillsets in your toolbox, including but not limited to:

- [Ethical Hacking](#)
- [Kali Linux](#)
- [Social Engineering](#)

- [OWASP](#) and [NMAP](#)
- [SQL Injection](#)
- [Wireshark](#)
- [Vulnerability Scanning](#)
- [Much more!](#)

So, what are you waiting for? [Your new career as a penetration tester awaits »](#)

Signup today and **get 50% off your 1st month of unlimited access** to Cybrary's [402 courses](#), [11 career paths](#), [994 virtual labs](#), [38 practice tests](#), [103 skill assessments](#), [Discord community](#), and mentors are only available to **Insider Pro members**.
